

BIOGRAPHY BOXES

- Students will be creating a box of items that their biography character either uses/used, wants/wanted, or could have used. All of these items must be brought inside the box.

STUDENTS SHOULD DECORATE THE BOX IN THIS WAY:

Top of box: Name of the book, Author's name, and your name/#/date

Front of box: picture of the bio person, the person's name, and their birth and death dates (if deceased)

Right side of box: 10 interesting facts about the person

Left side of box: Why they are famous – what is their claim to fame/special skill?

Back of the box: List of the 5 items inside and why they would need them.

For example: if my biography book is about Mrs. Smith, my items might include a new whistle for recess duty, a box of pencils that she could use for working, an extra set of eyes- so she can see kids everywhere, a scooter to get up and down the halls faster, and a big book of rules (because there are so many to remember). I would need to include a whistle, a box of pencils, maybe some rubber eyeballs, a toy scooter (because a real one would not fit in the box) and a book of rules (that I made out of construction paper).

I would then decorate my box according to the directions above, place my items inside, and be ready by _____ to make my oral report to the class. This project is worth 200 points.
